Updates and additions to software may require an additional charge. Subscription to online service providers may require a fee and credit card information. Financial services may require prior arrangements with participating financial institution.

Trademarks Acknowledgment

The EBOX-3300A/ 3310A series is the registered trademarks of DMP Electronics Inc. Microsoft®, Windows®, and AMI are registered trademarks of Microsoft Corporation and American Megatrends Inc. in the United States and/or other countries respectively.

Other brand names, product names or trade names appearing in this document are the properties and registered trademarks of their respective owners. All names mentioned herewith are served for identification purpose only.

Safety Information

WARNING

- Do not expose EBOX-3300A/ 3310A series to rain or moisture, in order to prevent shock and fire hazard.
- Never install EBOX-3300A/ 3310A series in wet locations.
- Do not open the cabinet to avoid electrical shock. Refer to your nearest dealer for qualified personnel servicing.
- Never touch un-insulated terminals or wire unless your power adaptor and display monitor are disconnected.
- Locate EBOX-3300A/ 3310A series as close as possible to the socket outline for easy access and to avoid force caused by entangling of your arms with surrounding cables from the EBOX-3300A/ 3310A series.
- When using EBOX-3300A/ 3310A series, avoid using or installing the modem to the serial port during a storm or a lightning.
- Do not use the modem or a telephone to report a gas leak in the vicinity of the leak.
- USB connectors are supplied with Limited Power Sources.

**DO NOT ATTEMPT TO OPEN OR TO DISASSEMBLE THE CHASSIS
(ENCASING) OF THIS PRODUCT. PLEASE CONTACT YOUR
NEAREST DEALER FOR SERVICING FROM QUALIFIED TECHNICIAN.**

Regulatory

FCC Class A Note

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference in which case the user will be required to correct the interference at his own expense. Testing was done with shielded cables. Therefore, in order to comply with the FCC regulations, you must use shielded cables with your installation.

WARNING

This product complies with EN55022 class A. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus as set out in the interference - causing equipment standard entitled "Digital Apparatus", ICES-003 of the Department of Communications.

Manufacturer's Declaration of Conformity

This equipment has been tested and found to comply with the requirements of European Community Council Directives 89/336/EEC and 73/23/EEC relating to electromagnetic compatibility and product safety respectively.

Attention

This product has been designed and certified to comply with certain regulatory requirements pertaining to Information Technology Equipment. This product has not been designed for use as a medical device. Without limitation of the foregoing, this product is not intended and has not been certified for use in a hospital or clinical environment to diagnose, treat, or monitor patients under medical supervision, and is not intended and has not been certified to make physical or electrical contact with patients, nor to transfer energy to or from patients and/or to detect such energy transfer to or from patients.

Purchase Agreement

Purpose:

In accordance to the general commercial conduct of Trust and Fair Trade, herewith below is the agreement for the protection for both parties, DMP and Users in pursuant of trading.

Product Description:

With this product, herewith also known as EBOX-3300A/ 3310A series which is a simplified & an economical design of an embedded device for Special Purpose Personal Computing. The basic specification of this product comprises of the x86 technology designs, and with onboard 256MB/ 512MB DDR2 System memory, VGA display, USB, PS/2 Keyboard/ Mouse, LAN and Audio Interfaces.

Distribution Convention:

1. This Product includes a gift box, an inner case, a PC, a Power adaptor, (and IDE cable will be included only for EBOX-3300A/ 3310A-H package). Upon receiving this product, please refer to the User' Manual to check for the contents and appearance of this product; contact immediately your nearest dealer or DMP office for any defective or missing parts. The supplier will not be responsible for any reported discrepancy thereafter the expiration period of 3-days from the date of purchase.
2. In consideration of transportation and the cost of storage, the supplier provides to the distributors a warranty of 12-months. This warranty covers the failure caused by hardware breakdown (excluding hard drives), but does not cover the act of misuse and mishandling.
3. The supplier will not accept unknown post, therefore if you wish to repair or to return your goods – kindly please contact your nearest dealer to make your declaration, and at the same time, apply for a RMA number (RMA stands for Return Merchandise Authorization – please ask for RMA form and fill-up for authorization).
4. The freight for return goods for repair will follow the International customary practice and convention: Both parties is to pay for freight of one shipment each. The shipper is required to prepay the freight from the place of origin (This means that the returnee (user) covers the freight for return goods, while the Supplier covers the freight for goods after the repair).
5. Obsolete warranty is referred to as: (1) Expiration of warranty or (2) Damage due to misuse within warranty. The Supplier will be taken into consideration of the circumstances, to provide repair service with charges expense for obsolete warranty. This expense includes the cost of material and the cost of labor.

Note: If there is other particular issue not listed in the above conditions, both parties agreed to follow the General Law of Commerce with fair and reasonable discussion in handling and resolving the argument.

Unpacking Your EBOX Mini PC

Congratulation! You have just acquired EBOX-3300A/ 3310A series, please check the following items.

Packing List:

Item No.	Description	Q'ty
1	EBOX-3300A/ 3310A series VESA PC	x1
2	Max. 10 - watts External Power Adaptor, Vin: 100~240VAC 50/ 60Hz, 0.45A / Volt: +5.0 VDC @ 2.0A Max.	x1

Note: The accessories are subject to change without immediate notice.

Check before Use

Preface

EBOX-3300A/ 3310A series: VESA PC

The EBOX-3300A/ 3310A series is a revolutionary device which is especially designed for limited physical space and temperature concerns. No matter you are in a jammed office, a crowded place, or public transportation, it can be easily integrated with a VESA LCD to bring you EBOX-3300A/ 3310A series access at any time.

It can attach to any VESA mounting fixture; allowing it to be securely mounted onto desks, walls, or buildings, and thereby optimizes your work area. It can also attach directly to any size LCD for a mobile system for the use at trade shows, presentations, promotions, etc. Unlike traditional portable laptop design, the EBOX-3300A/ 3310A series can be used with a large size LCD. Furthermore, with FANLESS design, EBOX-3300A/ 3310A series is ideal to be used in the environment where temperature demand is critical.

So, if you are looking for a device that is able to provide you with more mobility & space but at the same time uses less power consumption, then EBOX-3300A/ 3310A series will be surely meet your need.

The VESA® FDMI™ Standard defines mounting interfaces, hole patterns and associated cable/ power supply locations for LCD monitors, plasma displays and other flat panel devices. EBOX-3300A/ 3310A series is designed to fit this standard to make monitor attachment quickly and easy.

Chapter 2

EBOX-3300A/ 3310A series Overview

Front Panel

Power LED

The power LED lights up when system is turn on.

HDD LED

LED flashes when the system is accessing Hard Drive.

Audio Line Out

Audio output to speaker

Audio Mic In

For Microphone Input

CF & Micro SD Slot

The system is bootable from Compact Flash Card and Micro SD (T-flash).

USB ports

For connection to devices with USB interface (HDD, CD/DVD-ROM, Memory Stick, etc.)

Back Panel

DC Power Jack

PS/2 Keyboard or Mouse (6-pin)

VGA

USB Port

RJ-45 LAN Jack

Wireless Antenna connector (optional)

RS-232

Power switch

System Specification

CPU

MSTI-PDX-600 (System on Chip)

Main Memory

256 MB DDR2

512 MB DDR2

(512MB DDR2 version called 3310A series)

BIOS

AMI BIOS

VGA

XGI Z9S with 32 MB DDR2

Resolution up to 1,280 x 1,024 High Colors

Keyboard and Mouse

PS/2 Keyboard and Mouse

On-Board IDE

Enhanced IDE interface, 44 – pin box header x 1

Peripheral

1. USB V2.0 (host) x 3
2. Type I / II CF Slot and Micro-SD
3. Serial ports x 2 (available for EBOX-3300A/ 3310A-JSK)
4. Audio (Mic In, Line Out)
5. Mini PCI socket x 1 (available for EBOX-3300A/ 3310A-M and 3300A/ 3310A-JSK)
6. 2nd RJ-45 LAN (only available for EBOX-3300A/ 3310A-L2)

Dimension & Weight

115 x 115 x 35 mm / 505g

Operating System

Windows XP Home/ Pro

Windows XP Embedded

Windows Embedded CE

Supported Linux Distribution list:

1. Debian 4.0
2. Debian 5.0
3. Ubuntu 8.04
4. Ubuntu 8.10
5. **Ubuntu 9.04**
6. Ubuntu 10.04
7. **Edubuntu 9.04 (Ubuntu 8.10 base)**
8. **Easy Peasy 8.10**
9. Puppy 4.2.1
10. Puppy 4.1.2
11. WattsOS2 Warp30 (Ubuntu 8.10 base)

※ Red letters: Standard IDE compatible option enable could help for install directly

※ Ubuntu 8.10 / WattOS, Remember to enable the Media Port Instruction option for VGA compatible

Peripherals

Connecting the Power Adaptor

DC Power Jack

To use EBOX-3300A/ 3310A series immediately, please attach the supplied adapter for the power source. See the left diagram for visual connection.

Connect the DC power jack of the power adaptor to the DC Input of EBOX-3300A/ 3310A series.

Turning ON EBOX-3300A/ 3310A series

Switch on power as indicated on your left-side figure, the system will start automatically.

Connecting the Monitor

VGA Connection

Make your LCD display connection with the VGA cable to the 15-pin D-Sub VGA port.

Peripherals

Connecting the USB

EBOX-3300A/ 3310A series provide Three external USB ports with (Two at the front, One at the rear) and one internal USB port.

Micro-SD and CF Slot

For connecting to Device with Compact Flash Card and Micro-SD (T-flash).

Microphone/Earphone

The EBOX-3300A/ 3310A series supports Microphone Input and Speaker Output.

USB Ports

The USB ports are available for connection to USB devices such as CD-ROM / Pen Drive.

(Inside CF Slot)

Secondary IDE Master / Slave

Adjust for Compact Flash device to be Secondary IDE Master or Slave.

Connecting the LAN

RJ-45 LAN

There is an available RJ-45 LAN jack for Ethernet connection.
(See left diagram for RJ-45 Jack).

Connecting the Keyboard and Mouse

PS/2 Keyboard or Mouse (6-pin)

This PS/2 Port is shared for connecting Keyboard and/ or Mouse by using Split Y-Cable (not included).

Connecting Serial port

Serial Ports (Optional)

The serial port is usually connected to a serial device like modem or terminal devices. (Option for EBOX-3300A / 3310A-JSK)

Connecting 2nd LAN port

2nd LAN port

The 2 LAN ports version allows user to connect 2 LAN (Option for EBOX-3300A / 3310A-L2)

Chapter3

BIOS Reconfiguring

1. Take note that AMI BIOS is used in the EBOX-3300A/ 3310A series. To reconfigure the EBOX-3300A/ 3310A series, press or hit the key to enter your BIOS setup main menu.
2. Select from the menu, the desired setup for change.
3. Press <Esc> to go back to main menu.
4. Press <F9> to load factory default setting.
5. Move to "Exit" TAB and select "Save Settings and Exit", press "Y" to save the changes that you just made. EBOX-3300A/ 3310A series will restart accordingly to your new setup.

```

(AMI BIOS Setup menu)

Path to the Watchdog Configuration

1. Press get into BIOS, then choose Chipset.
2. Select Southbridge Configuration.
3. Press " F8 " the hiding option will show, choose Watchdog Configuration.

Debian / Ubuntu Linux Installation Guide

In the DX platform, with the newer IDE and Ethernet controller, both of the two controllers just start supported from kernel 2.6.28.3. Please refer to the guide to help you complete the installation.

How to install Linux on Vortex86DX platform?

Preparation:

1. The Linux installation DISC (Ubuntu8.04, 9.04, 10.04, Debian4.0, 5.0)
2. A completely formatted storage (CF, Micro SD or 2.5" IDE HDD)
3. Intel/ AMD platform Personal Computer
4. Confirm the BIOS setting
 - A. IDE Configuration\ IDE mode >> **Native mode**
 - B. USB Configuration\ USB 2.0 Controller Mode >> **Fullspeed**
5. The 2.6.30 or higher kernel package DMP provided for Vortex86DX platform

Note: The completely formatted storage is helpful to avoid some unexpected error in the procedure. After you plug all the devices and ready to install, please follow the steps as below:

Step1:

Please follow the standard procedure to install the Linux OS base on the Intel or AMD platform first, and make sure your Linux can boot up normally, after install completed.

Step2:

A. Copy the .deb file (kernel package) that DMP provided into your USB pen driver or other removable storage.

B. Press **Ctrl** + **Alt** + **F1** keys to enter text mode.

The system would ask you to enter your user name and password.

C. Plug on the USB pen driver and try to mount it as mnt.

```
#sudo su
#mount /dev/sda1 /mnt
#cd /mnt
Confirm the actual codename to mount.
```

D. To unpack the kernel package and update.

```
# dpkg -i xxx.deb  
# update-initramfs -k 2.6.30-vortex86mx -c  
# update-grub
```

E. When these three procedures completed, type reboot to reboot system.

```
# reboot
```

Step3:

Moving the storage installed Linux, back to VortexDX platform.

Step4:

Turn on the power to boot.

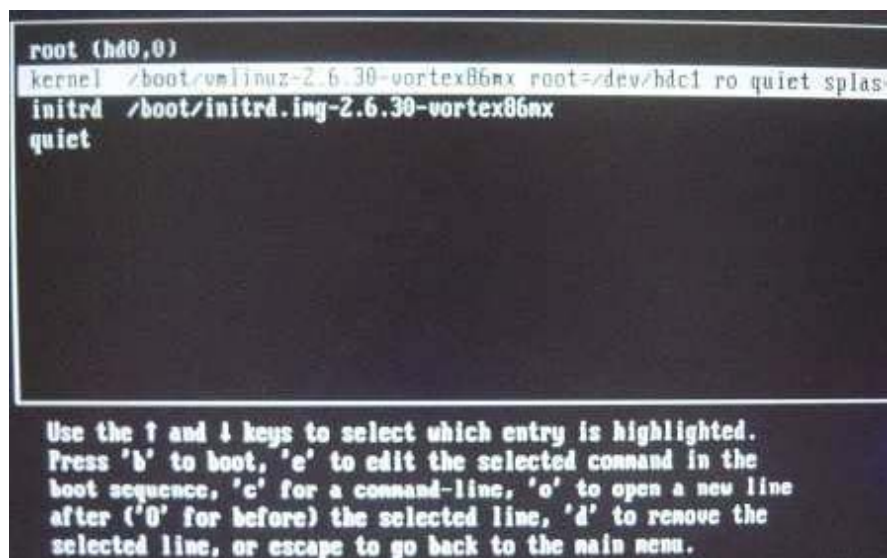

For Ubuntu

When it start booting, press the **Esc** key when it boot. Confirm the Grub list first. There should has an option 2.6.30-vortex86mx, and then to boot.

For Debian

Please press the **Esc** key to confirm Grub list and press **E** key to confirm and modify the storage's codename.

Note: The Grub list parameters you can modify in the file `/boot/grub/menu.lst`.

- Primary / Master = hda1
- Primary / Slaver = hdb1
- Secondary / Master = hdc1
- Secondary / Slaver = hdd1

Chapter 6

Taking Care of your EBOX

This section gives you some guidelines on using EBOX-3300A/ 3310A series – Safe using, Storing and Handling.

Storing

- ▶ Do not place EBOX-3300A/ 3310A series in a location that is subject to:
 - Heating sources, such as stove, oven, heater, radiator or air duct
 - Direct contact from sunlight
 - Rain or moisture area
 - Excessive dust accumulation area
 - High humidity place
 - Constant or occasional mechanical movement, vibration or shock
 - Strong magnets or magnetic fields or magnetically unshielded speakers
 - Ambient temperature of more than 95°F (35°C) or less than 32°F (0°C)
- ▶ Do not place other electronic device or electrical equipment near EBOX-3300A/ 3310A series. The electromagnetic field of the EBOX-3300A/ 3310A series may cause interference subjecting to malfunction.
- ▶ Provide adequate air ventilation (circulation) to prevent internal buildup of heat. Do not place EBOX-3300A/ 3310A series near the wall, behind the curtains or draperies, in between two books that block its ventilation slots. Leave a space of at least 8 inches (20cm) behind the sides and back panel of the EBOX-3300A/ 3310A series.
- ▶ Change of environmental temperature: Problems may occur when there is a sudden change of environmental temperature, or if the EBOX-3300A/ 3310A series is brought directly from a cold location to a warm one, moisture may condense inside EBOX-3300A/ 3310A series. Turn off the device, and contact your nearest dealer.
- ▶ Check the surrounding appliance(s) before using EBOX-3300A/ 3310A series. Since the EBOX-3300A/ 3310A series uses high-frequency radio signal and may interface with radio or TV reception causing interference or poor signal display. When this happens, relocate the EBOX-3300A/ 3310A series by a suitable distance away from the set.
- ▶ Do not drop the EBOX-3300A/ 3310A series from the working table nor place heavy objects on top of it.

Using Cables for Connection

- ▶ To avoid problem, use only the specified interface cables in your accessory bag. The supplier will not be responsible for the connection arising from the other unspecified peripheral equipment.
- ▶ Do not use cut or damaged cables for connection.

Cleaning Your VESA PC

- ▶ Clean the VESA PC with a soft, dry cloth or a soft cloth lightly moistened with a mild detergent solution.
- ▶ Do not use any type of abrasive pad, scouring powder, or solvent such as alcohol or benzene, as these may damage the finish of EBOX-3300A/ 3310A series.
- ▶ When a solid object falls or a liquid spills onto the EBOX-3300A/ 3310A series, turn off the EBOX-3300A/ 3310A series immediately and unplug the LAN and power cables. Contact a qualified person or your dealer to check the EBOX-3300A/ 3310A series before you use it again.
- ▶ Always disconnect the power cord from the power source before cleaning the EBOX-3300A/ 3310A series.

Troubleshooting

This section describes the techniques of resolving some basic problems that you encounter when using EBOX-3300A/ 3310A series. For more troubleshooting guidelines, please contact your nearest dealer for technical support.

Troubleshooting Your VESA PC

A. VESA PC

- ▶ Make sure the EBOX-3300A/ 3310A series is properly secured and plugged into a power source before it is turned on. Make sure the power indicator shows the power is on. See section 2 for more information about “EBOX-3300A/ 3310A series Overview”.
- ▶ When the EBOX-3300A/ 3310A series is plugged into a power strip or the UPS (Uninterruptible Power Supply), make sure the power strip or UPS is turned on and working normally.
- ▶ Check if your VGA or LCD monitor is properly plugged into a power source and turned on. Make sure the brightness and contrast controls are adjusted correctly. See the manual that came with your display (monitor) for details.
- ▶ Check if your power control button does not function, by removing the AC adaptor. Wait for one minute, and then reattach all power connection before pressing the power button.
- ▶ Condensation may cause the EBOX-3300A/ 3310A series to malfunction for a while. If this happens, do not use the EBOX-3300A/ 3310A series for at least one hour.
- ▶ When you have checked all the above guidelines and the EBOX-3300A/ 3310A series does not work. Remove the power adaptor from the EBOX-3300A/ 3310A series, unplug the power cord, and plug it in again. Then turn on the power.
- ▶ When CF card compatible issue happened sometime, please try below setting and see if better. To set CF card as PIO mode in the BIOS settings as below:
